

DR-TB STAT: Summary and Updates

February, 2016

Overall:

- Current number of patients on BDQ under program conditions: 2306 (1100 South Africa; 139 Belarus; 164 Georgia; 6 Armenia, 45 Swaziland, 827 Russia, 9 Indonesia, 2 PNG; 9 Lesotho; 4 Peru; 4 Kazakhstan); total number CU= “700+”
- Current number of BDQ orders from GDF: 3795
- Current number of patients on DLM under program conditions and CU: 180
- Current number of DLM orders from GDF: 0

Country Updates:

- Georgia: Using BDQ from donation program, also treating patients in prison
- Indonesia: 9 patients in 3 sites and active ongoing screening sites actively screening patients; some clinical challenges in management
- India: Received 500 courses from Janssen, plan to initiate any day now; Initiated paperwork for 1000 courses from the GDF; plans not yet finalized, unclear when they will start but plan is in Q1 2016
- Vietnam: BDQ arrived, no updates
- Philippines: drug arrived still awaiting ethical approval from a number of sources.
- South Africa: continues to progress with about 20-30 new BDQ patients a week; still issues with LZD access but companies such as MacLeod's are submitting dossiers, also great regional variation;
- Lesotho: 9 patients on therapy
- Peru: 4patients started to date
- Swaziland: BDQ arrived December 2—45 total patients
- Kenya: Continuing to develop national plan
- China: No formal updates, but Janssen was told they will hear about the registration request sometime in January
