- Current number of BDQ orders from GDF: 3895
- Current number of patients on DLM under program conditions and CU: 180 according to company; 7 from MSF in Belarus; 8 from MSF in Armenia= 195 total
- Current number of DLM orders from GDF: 0

Country Updates:

- Georgia: Using BDQ from donation program, also treating patients in prison
- Indonesia: 21 patients in 3 sites and active ongoing screening sites actively screening patients; some clinical challenges in management
- India: Received 500 courses from Janssen, plan to initiate any day now; Initiated paperwork for 1000 courses from the GDF; plans not yet finalized, unclear when they will start but plan is in March 2016
- Vietnam: BDQ arrived, 19 patients on BDQ from 3 sites; BDQ will expire in October 2016
- Philippines: drug arrived; protocol is not yet approved by the national ethics board. Currently having our Joint Program Review and part of the review is to determine if we can implement BDQ under program condition
- South Africa: continues to progress with about 20-30 new BDQ patients a week; Pfizer awarded LZD tender at a cost of ZAR 3000 per patient per month (USD 195 per patient per month; or about USD 7 per tablet) also great regional variation; DLM discussions ongoing for 200 treatment courses.
- Lesotho: 19 patients on therapy
- Peru: 4 patients started to date
- Swaziland: BDQ arrived December 2—47 total patients; preparing to submit order for DLM and will be the first country to obtain DLM for program use from GDF.
- Kenya: Continuing to develop national plan
- China: No formal updates, but Janssen was told they will hear about the registration request sometime in the next few months
- Russia: continue to make progress throughout the country
- Mozambique: working on final documentation to place order for about 200 patients; still some challenges getting documents in Portuguese.

Other topics

- DLM access announcement
- Use of BDQ in countries with limited access by patients purchasing the drug in other settings (i.e. FSU buying in Russia)
